### 4. First aid measures

<b>First aid procedures</b>	
<b>Eye contact</b>	Flush eyes immediately with large amounts of water. Get medical attention if irritation persists.
<b>Skin contact</b>	Wash area thoroughly with soap and water. Get medical attention if irritation develops or persists.
<b>Inhalation</b>	Remove victim to fresh air. If breathing difficulty occurs, get medical attention .
<b>Ingestion</b>	Routine use of this product is not expected to cause any situation which could lead to ingestion. If this product is swallowed call physician or poison control center for most current information. If professional advice is not available, do not induce vomiting. Never induce vomiting or give diluents ( milk or water), to someone who is unconscious, having convulsions or unable to swallow.
<b>Notes to physician</b>	Treat symptomatically.

## 5. Fire-fighting measures

<b>Flammable properties</b>	Material should not burn in a fire unless it contains a substantial fat/oil component. Concentrated dust in an enclosed space can pose an explosive threat.
<b>Extinguishing media</b>	Use water spray, dry chemical, carbon dioxide or fire-fighting foam for Class A or B fires to extinguish fire.
<b>Suitable extinguishing media</b>	
<b>Protection of firefighters</b>	
<b>Specific hazards arising from the chemical</b>	Combustion may produce COx and other decomposition products in the case of incomplete combustion.
<b>Fire fighting equipment/instructions</b>	Evacuate area and fight fire from a safe distance.  Use water spray to cool adjacent structures and to protect personnel. Stay away from storage tank ends. Withdraw immediately in case of rising sound from venting safety device or any discoloration of storage tank due to fire.  Firefighters must wear NIOSH approved positive pressure breathing apparatus (SCBA) with full face mask and full protective equipment.

## 6. Accidental release measures

<b>Environmental precautions</b>	Dry clean-up by sweeping and/or scooping.
<b>Waste disposal method</b>	Totally biodegradable. Dispose of recovered materials per local state and federal requirements.
<b>Precautions to be taken in handling and storing</b>	Keep dry to avoid biological decomposition.

## 7. Handling and storage

<b>Handling</b>	Good personal hygiene practices such as properly handling contaminated clothing, using wash facilities before entering public areas and restricting eating, drinking and smoking to designated areas are essential for preventing personal chemical contamination. Do not breath dust. Avoid contact with skin or eyes.
<b>Storage</b>	Store in tightly closed containers in a cool, dry isolated, well-ventilated area away from heat, sources of ignition and incompatibles. Avoid contact with strong oxidizers.  Empty containers may contain material residue. Do not reuse without adequate precautions.  Do not eat, drink or smoke in areas of use or storage.

## 8. Exposure controls/personal protection

<b>Exposure limits</b>	Not available
<b>Engineering controls</b>	Ventilation and other forms of engineering controls are the preferred means for controlling exposures.
<b>Personal protective equipment</b>	
<b>Eye / face protection</b>	Keep away from eyes. Eye contact can be avoided by using chemical safety glasses, goggles and/or face shield. Have eye washing facilities readily available where eye contact can occur.
<b>Skin protection</b>	Wash hands with soap and water. Protective gloves recommended.
<b>Respiratory protection</b>	Use dust masks in enclosed spaces.
