rothsay.ca

Dear Valued Customer,

Rothsay recycles used cooking oil (UCO), used exclusively in the preparation of foods for human consumption, for use in the production of animal feeds, industrial products, and biodiesel in Canada and around the globe. The International Sustainable and Carbon Certification System (ISCC) certifies that Rothsay's recycled UCO complies with the sustainability criteria of the European Directive on renewable energy (209/28/CE) and ISCC EU.

In accordance with the ISCC certification process, **we are conducting a survey to verify the origin of the used cooking oil. As the majority of UCO that we collect today, is vegetable oil such as soy, canola, peanut, etc. no response is necessary if you are providing used vegetable oil.** If your cooking oil originated from Animal Fat, please fill out the attached Form, check 1(b) and email a copy to ISCCobjection@rothsay.com

Going forward, Rothsay will collect your UCO under the term that you declare that requirements 1, **1(a)**, 2, and 3 as set forth on the enclosed ISCC Self-Declaration ([including the Note](#)) are met. You can accept the foregoing term simply by continuing to present UCO for Rothsay to collect.

If you object to the attached declaration, you must notify Rothsay by email to ISCCobjection@rothsay.com and explain your objection. [Without an objection within 14 days after the date of this letter, we will deem your UCO to be of vegetable origin and the declarations contained herein and the enclosed ISCC Self-Declaration shall be incorporated into and made a part of your agreement with Rothsay for each collection of UCO from your facility.](#)

In the event, that you are not the intended recipient, we kindly ask you to forward this on to the appropriate personnel. Should you have any questions regarding the attached, please contact our Customer Service department at 1-800-263-0302.

Rothsay thanks you for your attention to this matter and greatly appreciates your business.

Sincerely,

Trevor Offord
Raw Material Director
