WET PET FOOD MARKET

INGREDIENTS FOR WET PET FOOD

Sonac and CTH produce valuable and essential ingredients for the production of wet pet food. We do that with the mission of our clients in mind: give the pets the tastiest and healthiest pet food and snacks available.

NATURAL

Through careful selection of its raw materials, modern production processes and comprehensive quality programs, Sonac offers products and services that meet the strict requirements of our pet food customers and all legal guidelines. Always.

TASTY & HEALTHY

Joint projects with strategic wet pet food producers have been realized in order to meet specific demands regarding taste and health claims. Sonac's specific functional proteins can enhance palatability whereas natural meat-by-products are a healthy basis for every type of pet food.

TURNKEY

CTH offers a broad range of fresh and frozen meat-by-products. Moreover, we can deliver pre-mixed blends according to our customers' specifications. This makes CTH a turnkey supplier.

BINDING

Functional proteins are known to improve water binding or emulsifying properties of wet pet food.

THE ADVANTAGES OF SONAC AND CTH'S WET PET FOOD INGREDIENTS:

- Natural
- Tasty & healthy
- Turnkey
- Binding
- Color

COLOR

Creating a meat-like color appearance can be achieved with Sonac's natural colorants of bovine or porcine origin.

INGREDIENTS FOR WET PET FOOD

MEAT-BY-PRODUCTS CTH
